Data Base 1 My SQL Bench | NaanMudhal...

The screenshot displays a MySQL database management tool interface. On the left, a sidebar shows the database structure with 'mydatabase1' selected. The 'student' table is highlighted under the 'Columns' section. The main area shows the 'Table: student' structure with columns: Admno (int PK), Name (varchar(20)), Gender (char(1)), and Age (int). Below this, the 'Action Output' tab shows a log of database operations:

Time	Action	Response
12:42:15	use mydatabase	0 row(s) affected
12:42:57	create table student(Admno integer not null primary key, Name varchar(20), Gender char(1), Age integer)	0 row(s) affected
12:43:51	insert into student(Admno, Name, Gender, Age) values(1, 'Sathish', 'M', 19)	1 row(s) affected
12:43:56	SELECT * FROM mydatabase.student LIMIT 0, 1000	1 row(s) returned
12:44:22	SELECT * FROM mydatabase.student LIMIT 0, 1000	2 row(s) returned

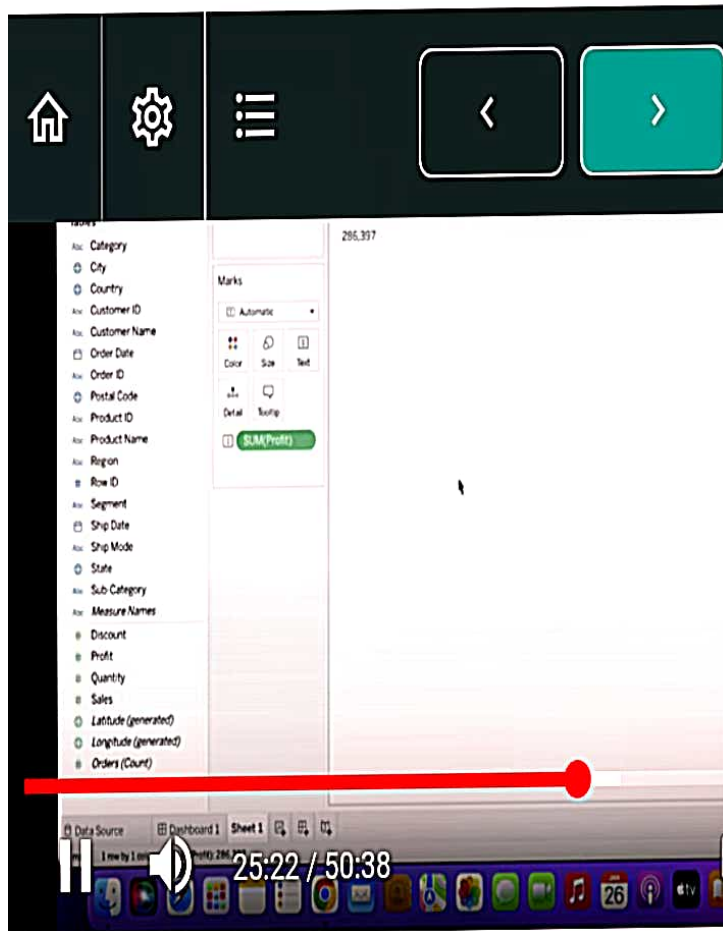

The interface also shows a progress bar at 100%, a session ID of 431, and a message '1 error found'. A video player overlay at the bottom indicates the video is at 55:17 / 1:00:11.

The screenshot shows a Tableau interface with a dashboard titled "Pie Char Method 3". The dashboard displays four pie charts, each representing a different region: Central, East, South, and West. The "Central" region is at the top, followed by "East", "South", and "West" below it. The Tableau interface includes a sidebar with a list of fields (Tables, Dimensions, Measures) and a central workspace with filters and marks. A red line is drawn across the bottom of the dashboard. At the bottom of the screenshot, there is a video player interface showing a play button, a progress bar with the time "25:48 / 28:15", and a Creative Commons (CC) license icon.
